### **Part III DETAILED ACTION**

1. Claims 21-45 and 47-74 are pending.

Claim 32 stands withdrawn from further consideration by the examiner, 37 CFR 1.142(b), as being drawn to non-elected inventions, for reasons set forth in Paper Nos. 12 and 14.

2. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 3-23-04 has been entered.

#### ***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. § 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless --

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 21, 22, 24-31, 33-35, 45, 48, 50, 56, 59 and 75 are rejected under 35 U.S.C. § 102(b) as being anticipated by WO 98/54226, of record, (number AI on the IDS submitted 1-25-02), for reasons of record mailed 9-23-03, as evidenced by Moffet et al.

Applicant's arguments filed 3-23-04 have been fully considered but are not found persuasive.

Applicant argues the prior art reference does not teach mucosal administration to an airway.

Art Unit: 1644

However as evidenced by Moffet et al., oral administration would encompass an airway since the pharynx is considered part of the airway and would be part of oral administration.

4. Claims 23, 36-44, 46-47, 49, 51-55, 57-58 and 60-74 are objected to as being dependent upon rejected claims.

5. The fax number for the organization where this application or proceeding is assigned is 703-872-9306.
